- We help factories and suppliers who have excess stocks to sell them in South East Asia.

D.LAB New Product Sourcing B2B Platform V2.0

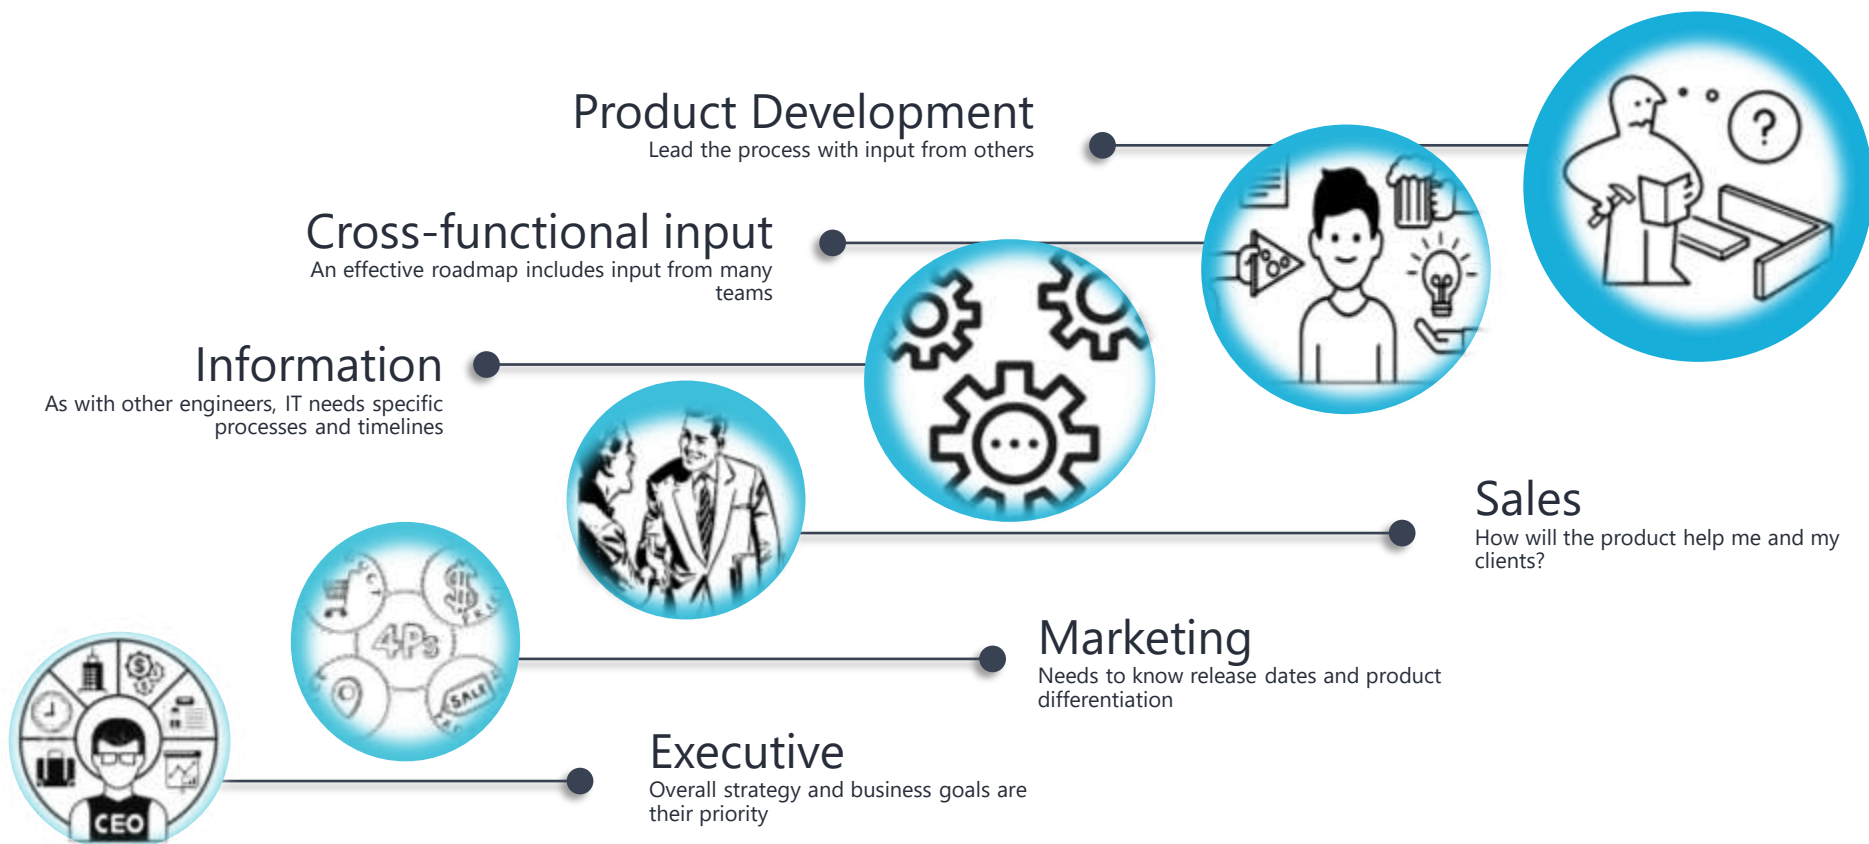

- **Growth opportunity in B2B volume orders!**
- **We help companies' source, develop, manufacture and deliver products to their warehouse.**
- We offer a seamless and guided journey for companies need offshore contract manufacturing from start to end.
- We offer a robust pricing system for companies and suppliers.
- We offer value-added services such as warranty, buffer stocks, product test certificates, factory audit reports, QC and QA reports, etc.

Who we are – Our Company

D.LAB DEZIGN LABORATORIES

Product Design and Development

Dezign Laboratories draws on deep multi-industry expertise to cross partner ideas and core technologies. Our innovation platform is an ecosystem approach that helps customers monetize their investments, reduce time-to-market and enhance product functionality by leveraging core technology blocks that are qualified by our field quality excellence team.

Who we are – Our Belief

WE BELIEVE WE CAN MAKE BETTER AND BETTER

Optimised cost-benefit Production

With a huge network of factories in Asia, we conduct factory inspection and background checks to determine the best factory choice based on your needs.

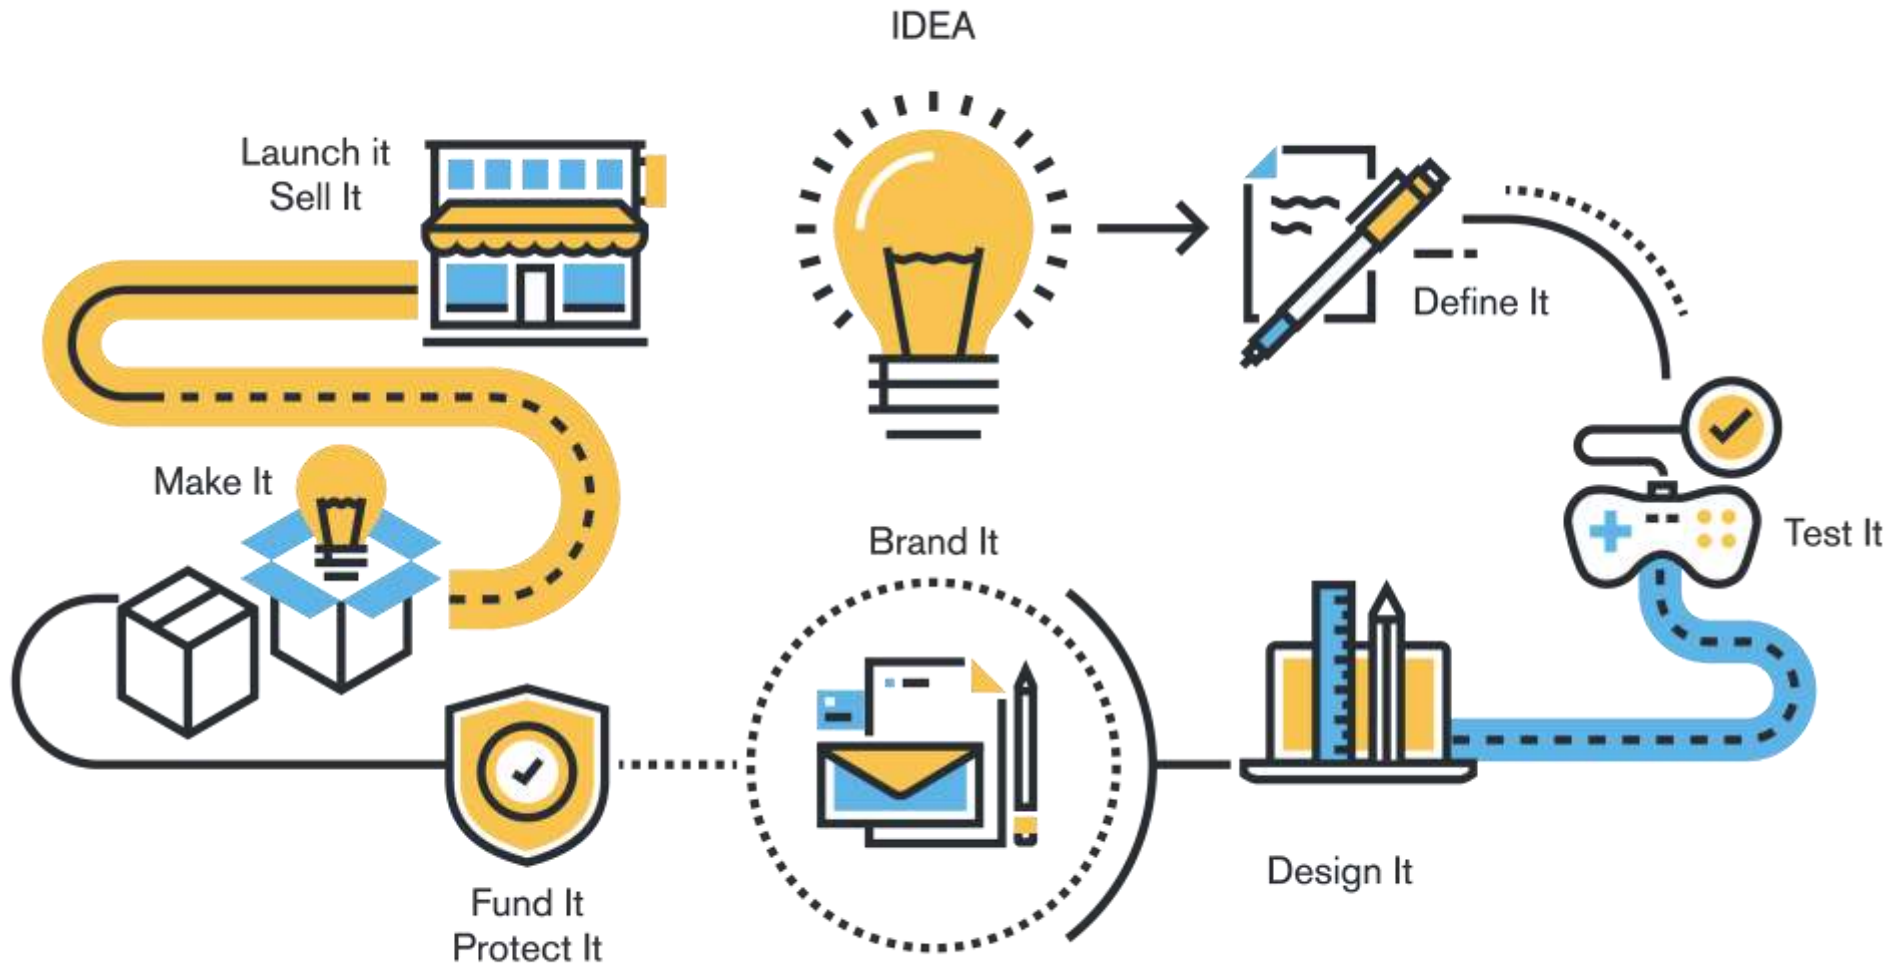

Quality Control and Assurance

We test the reliability of components and complete products. Full characterization of components and products are performed using contemporary techniques. We also test the reliability of products through certified test equipment and facilities that simulate temperature, electrical safety, pressure monitoring, humidity, vibration, salt spray, flow, ultraviolet rays, lighting, and drop and abrasion testing. Our testing services help bring products to market safely, reducing setbacks and delays.

Who we are – Our Belief

WE BELIEVE WE CAN MAKE BETTER AND BETTER

Who we are – Our Commitment

WE AIM TO DELIVER IN TIME

Supply Chain and Logistics

The team of product and manufacturing specialists at D.LAB Dezin Laboratories follows a robust process consisting of on the ground project management and full service consulting to assist in timely project execution and cost reductions, without compromising quality. We operate as an extension of your team to set up and manage your entire supply chain and Asia-based manufacturing, eliminating the risks and roadblocks typically associated with doing business overseas.

Who we are – Our Innovative Business Model

ORIGINAL DESIGN MANUFACTURER

Bold ideas requires Big efforts

Dezign Laboratories works with your team in the early concept stages of product development for new market applications or when product requirements are highly ambiguous. As part of the collaborative and exploratory process, we provide the necessary system design and engineering with focus on concept analysis, system viability and iterative prototyping.

Dezign Laboratories offers customised tooling to enhance functionality and design. This helps you achieve competitive differentiation and optimization through process innovations early in the design and manufacturing phases.

Our Customer Journey

Here's how it works

D.LAB Report

Here we present our “Design to Deliver” project that we will be embarking on this year. To start this meeting, we will first review our current project status, the team members assigned to the project, the timeframe needed for the project to complete, as well as its budget allocation. Overall, our goal is to ensure that project gets delivered on time, with outstanding results, and preferably under planned budget.

20%

Status of Completion

Week 2 we have completed about 20% of the project and on track with our initial plan.

68

Team Members

This project involves and utilizes talents from four departments: Design, Quality Control, Manufacturing and Logistics.

6

Months to Complete

We have thus far completed two months of the total timeframe originally planned for this project.

\$100K

Budget Allocated

Due to the importance of this project, upper management has allocated more budget than usual to ensure its success.

make life great

A stylized illustration of a bridge with a large, curved arch. The bridge has a grey base and a blue arch. Three vintage cars are driving across the bridge: a white car on the left, a dark car in the middle, and a white car on the right. The bridge is supported by several vertical pillars. The background is a light grey gradient.

Bluetooth A2DP Music Sports Headphones DBH-501

A promotional banner with a red background. On the left, white text reads 'FREE D.Lab DBH-501 Stereo Bluetooth Headset worth SGD99!'. In the center, a pair of black headphones is shown inside a white circle. On the right, two boxes of Trend Micro software are displayed: 'Trend Micro Premium Security 10' and 'Trend Micro Maximum Security 10'. A yellow starburst graphic in the top right corner says 'MONEY-BACK 30 DAY GUARANTEE'.

“D.LAB holistic customisation approach to our marketing campaign gives our customers a compelling reason to purchase our Trend Micro products with bundling of a high perceived value product that resonates with our brand - Innovation”.

Adel Ang
Regional Manager

A screenshot of the Trend Micro Premium Security 10 product page. The title 'Premium Security 10' is at the top. Below it is a Windows logo and the text 'Compatible with Windows 10'. A central image shows various devices (laptop, tablet, smartphone) displaying the software interface. To the right, a description states: 'Comprehensive multi-device web protection. Trend Micro™ Premium Security provides comprehensive, multiple device protection so you can do great things online safely. It safeguards against viruses, fraudulent websites, and identity theft. Also, it features a privacy scanner for Facebook, Google+, Twitter, and LinkedIn.' Below this is a list of features: 'Secures up to 5 devices', 'Protects against viruses', 'Blocks dangerous websites', 'Protects kids online', 'Tunes up system', 'Secures Android™ and iOS mobile devices', and 'Guards against identity theft'. At the bottom, there are three buttons: 'Buy Now', 'Free Trial', and 'Renew or Upgrade'. A testimonial from 'HowyF, March 2015' is also present, stating: 'I absolutely love this product. I have used several other programs and none of them compare. As soon as I installed it and did a quick scan, it found several malicious files that Security Essentials never saw.'

Asus Singapore Pte Ltd

2.1 Channel Subwoofer Speaker System (USB powered)

“D.LAB Design Laboratories is very detailed from conceptualization to proof of concept (prototype) to delivery. And I’m impressed with the high quality seen with the actual products”.

Bernard Wen
Asus Country Manager

FEATURES

Powerful subwoofer
The subwoofer is designed to deliver deep, powerful bass to enhance your listening experience.

High-quality sound
The satellite speaker is designed to deliver clear, crisp sound to enhance your listening experience.

Easy to use
The subwoofer and satellite speaker are easy to use and can be connected to your PC or other audio sources.

Wide sound
The subwoofer and satellite speaker are designed to deliver a wide sound field to enhance your listening experience.

PRESTIGIO SERIES

2.1 CHANNEL SUBWOOFER SPEAKER SYSTEM
(P/N: DLS0000)

Really USB powered 2.1 Channel Subwoofer Speaker System

Compact and robust, D.LAB DLS0000 powered two channel speaker system adds dynamic depth and range to your music and gaming experience. After long hours of gaming or watching TV, the subwoofer and satellite speaker system will deliver an off-center 3D audio experience to help you immerse yourself in the game, movie, or other content. The subwoofer and satellite speaker system is designed for high-quality audio performance at the DLS0000 subwoofer.

Excellent playback performance

The DLS0000 is not to let your audio performance down. The powerful central subwoofer delivers high-quality audio to a wide range of PC, laptop, tablet, or system-connected fully-powered devices, such as your notebook. You can also use the optional 3.5" speaker port with your desktop PC. It's made with a rugged aluminum design, robust construction, and offers easy access to the subwoofer's controls. The subwoofer and satellite speaker system is designed for high-quality audio performance at the DLS0000 subwoofer.
